

LPFM should not be given priority over current FM translator services. I count on K-LOVE radio station every day for both the music and the encouraging messages. This station provides family friendly programming. I am one of the listener supporters of this radio station. I also stand behind the community service that K-LOVE encourages its listeners to support, such as Food for the Hungry, Rescue Missions, etc. K-LOVE provides another source of news and information. I often learn more from K-LOVE that is important to me than from other news sources.
